

Attention indianheadtel.net Dial-up Internet Customers!

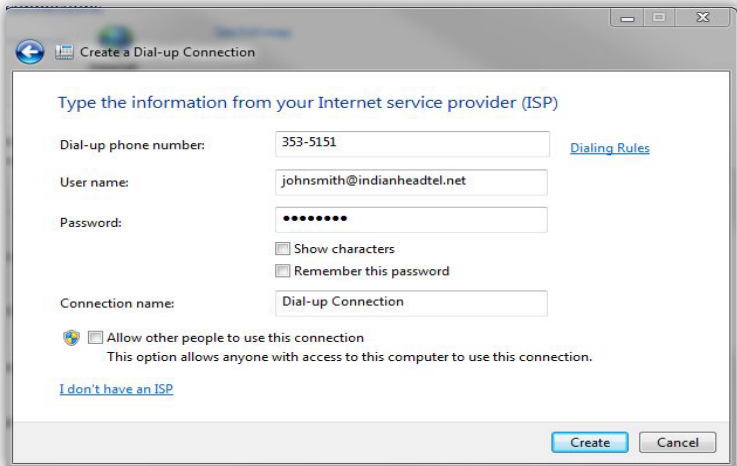

We are in the process of updating our dial-up internet equipment and need you to make a change in the way that you connect to the internet. **Beginning May 11th, you will need to include your full e-mail address when you connect to the internet.**

For example:

If your e-mail address is *johnsmith@indianheadtel.net* you will need to enter your full e-mail address of *johnsmith@indianheadtel.net* when you see the dial-up prompt.

Please make this simple setting change as soon as possible. Both login formats will work today; as of May 11th you will no longer have the ability to login with out your full e-mail address. Failure to make these changes will result in the inability to access your internet account.

If you have any questions or would like assistance implementing this change please call our 24-hour Technical Support line at 1-888-531-3334 or dial 353-2434 during regular business hours. As always, thank you for your business!

Create a Dial-up Connection

Type the information from your Internet service provider (ISP)

Dial-up phone number: 353-5151 [Dialing Rules](#)

User name: johnsmith@indianheadtel.net

Password: ●●●●●●
